

Dhruv Rai

AI Product Manager | Builder-PM | IIT Kharagpur (Dual Degree, AI Specialization)

Bengaluru, India | +91-9412277458 | dhruv.ra.2001@gmail.com | linkedin.com/in/dhruv-rai-flanker/

Work Experience

Zoca (Accel-backed, Seed, agentic AI for the local-services economy)

Bengaluru, India

Product Manager

Oct 2025 – Present

Product Analyst (CX & Growth)

Dec 2024 – Oct 2025

- **Owning Zoca Web (ICP expansion to multi-location/multi-staff SMBs):** Lead pod of 2 engineers + 2 ops; own discovery, PRDs, GTM, and ship NextJs APIs and React features alongside the team. Now powers **\$1.5M+ ARR** / **300+ paying customers**.
- **AI Content Generation (AEO):** Shipped LLM pipeline producing **2 blogs + 7 GBP posts/customer/week** and **20 service pages/month** (entities have 50–100 services), aligned to AEO rule-sets and customer keywords. **70% ship customer-approved with zero edits**.
- **AI Keyword Pipeline:** Redesigned keyword selection from black-box ops process to transparent collaborative system; AI proposes, customer validates, model learns from feedback. Powers content + ads.
- **Lead & Revenue Prediction:** Built ML system forecasting customer-level lead and revenue performance at **86% avg accuracy (90%+ for hair salons and massage spas)**, used by CX as primary churn-risk and expansion signal.
- **Self-Serve Website Builder + Editor:** Replaced ops-ticket workflow with real-time customer self-edit. **First build: 48 hrs → 35 sec; edit SLA: 24 hrs → 60 sec**.
- **CX Health Score:** Designed and shipped health score across **1000+ accounts**; drove monthly churn from **15%+ to under 5%** and held **0 churn from healthy cohorts for 2 consecutive months** pre-transition.
- **Ads-Agent Turnaround:** Took over churning Ads-Agent vertical mid-stint (12 of ~50 churned in Sep); rebuilt funnel signal tracking and automated keyword selection, doubling avg ROAS and stabilizing the cohort.
- **Internal AI Tooling:** Integrated MCPs across HubSpot, Metabase, Mixpanel and authored Claude skill files with DB schema; **adopted company-wide** for self-serve analytics, eliminating need to backfill the analyst role post-promotion.

Wishlink (Series A, Elevation/Fundamentum-backed creator commerce)

Gurugram, India

Product Analyst (Full-time, post-internship conversion)

Feb 2024 – Dec 2024

- **0→1 launch** of consumer social-commerce app (short-form video × shopping); joined pre-launch as first product analyst, on core team through scale to **~1Cr+ monthly GMV (~\$120K)** and **2–3L WAU in 10 months**.
- Redesigned and shipped the **home screen** and **community forum** features; co-authored PRDs and instrumented event-level tracking across the funnel.
- Designed A/B testing framework with normalized cohorts in DBT + Redash; ran experiments across onboarding, feed, and conversion surfaces for unbiased validation.

NoBroker.com

Bengaluru, India

Product Analyst Intern – NoBrokerHood (4M+ user community vertical)

May 2023 – Jul 2023

- Conducted **300+ user interviews** and analyzed NPS responses to surface engagement and gender-disparity gaps; ran semantic clustering on 1.1M+ forum posts.
- Output shipped: forum interactions **2×** via UX changes, and gender-incentive program grew the active female user base by **60K**.

Heltar (Antler-backed; raised \$175K pre-seed)

Founding Team Member, Kharagpur

Dec 2022 – Apr 2023

- **Product strategy:** Ran market research and customer discovery driving the pivot from B2C EdTech to a B2B WhatsApp-business platform serving SMBs.
- **Engineering leadership:** Led migration of single-tenant EdTech stack to multi-tenant SaaS architecture to support multiple paying customers post-pivot.

Echospace – Founding Engineer Intern, Remote (COVID-era)

May – Jun 2021

- Solo-built end-to-end web marketplace for sourcing essentials during COVID alongside the founder; owned full technical stack while founder ran sales and supply.

Mastercard – SQE Intern (PPO Offered), Pune

May – Jul 2022

- Built automated data quality pipeline for Mastercard Advisors, adopted by 3 internal teams across global transaction data.

Education

Indian Institute of Technology (IIT), Kharagpur

2019 – 2024

Dual Degree (B.Tech + M.Tech), Industrial & Systems Engineering · **Micro-specialization in AI** · **CGPA: 7.75/10**

M.Tech Thesis: Content-based recommendation system for short-form fashion video using Mask R-CNN; engineered feature-extraction pipeline for granular fashion attributes, achieving **mAP 0.76 (35% over baseline)**.

Leadership

Hall President – Azad Hall of Residence, IIT Kharagpur

Aug 2022 – Apr 2023

- Elected by 730+ students; managed **2.7Cr (~\$285K)** annual budget, led an 80-member 3-tier council, raised **11L+ in alumni funds**, and led COVID medical logistics and contact tracing for the hall.

Skills

Product | PRD writing, roadmapping, 0→1 product, A/B testing, user research, GTM & ICP expansion, funnel analytics, BMAD, sprint planning, agentic product development

AI & Data | LLM evaluation, prompt engineering, RAG, MCPs, Claude skills, LangSmith, Mask R-CNN / CV, SQL, Python, Mixpanel, Metabase, DBT, Redshift, materialized views.

Builder & Engineering | React, TypeScript, Python, backend APIs, AWS, Retool, HubSpot, Playwright (E2E tests), Git, C#, .NET core, Selenium
